Skills

Technical Skills

- Python (Basic), C, Java Programming
- Data Structures (Basics)
- HTML, CSS, JavaScript
- DBMS
- OS

Soft Skills

- Problem Solving
- Teamwork
- Communication
- Time Management

Head of the Department CSE-DS
Malla Reddy Engineering College
for Women

About Me

I am a B.Tech Data Science student with a strong interest in programming, data analysis, and web development. I have foundational knowledge of Python, C, and Java along with basic understanding of data structures, and I continuously work on improving my technical skills through projects and learning opportunities. I have also led a team, which helped me develop leadership, teamwork, and communication skills. Along with academics, I actively participate in extracurricular activities and have taken part in several national-level classical dance competitions. I am hardworking, responsible, and always eager to learn new technologies and grow both personally and professionally.

Education

- **B-tech CSE-DataScience**
Malla Reddy Engineering College for Women
Telangana ,India 2026
present
- **Intermediate**
Tirumala jr College
Katheru,Andhra pradesh,India 2021 - 2024
- **School**
Narayana e-techno School
Ravulapalem,Andhra pradesh,India 2021

Language

- Telugu
- English

Hackathon Experience

● **Prototype Challenge – RVR & JC College of Engineering**

- **Secured 3rd Prize in the competition**
- Led a team in developing AI-driven tools for real-time millet crop health monitoring, weather insights, and advisory systems.

● **Stack Fusion Hackathon – MRECW**

- **Secured 2nd Prize (Cash Prize ₹2000).**
- Developed the frontend of a website within one hour using HTML and CSS.

● **KL Hackathon – AI-Based Skill Gap Identification System**

- Developed an AI-powered system to identify skill gaps by analyzing user profiles and recommending relevant learning resources to improve career readiness.

● **KL Hackathon – Retrieval Augmented Generation (RAG) Based AI Solution**

- Built an AI-powered application using Retrieval Augmented Generation (RAG) to process and retrieve relevant information from datasets for solving real-world problems.

● **InvestIQ – FinTech Web Application | Vasavi College Hackathon**

- Developed a stock market learning platform that helps users understand investments and financial trends.
- Worked on the frontend development of the web application.

● **Integrated Academic & Examination Management System | MLRIT Hackathon**

- Designed an EdTech platform for managing academic records, examinations, and student information efficiently.

● **HackLeague – Google Developer Groups (GDG)**

- Participated in a national-level hackathon focused on solving real-world technical problems through innovation and collaboration.

Certificates

● **Cisco Networking Academy**

C Programming – C1 & C2
Python Programming – Python 1 & Python 2
Introduction to Data Science
Data Analytics

● **NASSCOM**

Generative AI (GenAI) Certification

● **NPTEL**

Introduction to Python

● **CodeChef**

Python Programming
Greedy Algorithms

● **HP Life**

HP Success Mindset Program (Strategic Thinking & Innovation)

● **Cambridge English**

Certification in Professional English Communication

● **Additional Participation Certificates**

Participation in multiple technical events, workshops, and hackathons.
